

CABERNET THEME

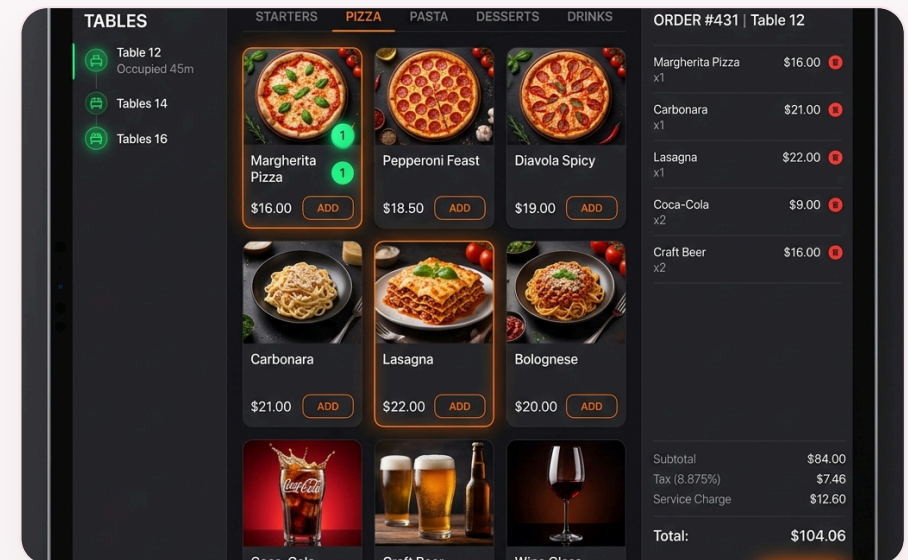

The Ultimate **Flat-Rate** POS Suite.

We build your POS exactly how you want it, with the features you need. A single flat ₹14,999/year package includes managed cloud hosting, automatic backups, and direct support.

Stop paying **per terminal** and **per feature**.

Standard POS systems lock you into an endless subscription loop, eating your hard-earned profits month after month.

- ✗ **Continuous Screen Fees:** They charge you extra for every cashier terminal, waiter tablet, or kitchen display screen you add.
- ✗ **Feature Paywalls:** Advanced modules like recipe inventory tracking, SMS marketing, or CRM loyalty are locked behind high-tier plans.
- ✗ **Transaction Commissions:** They take hidden percentage cuts on your own table-specific QR self-ordering transactions.

Our Model is Simple

One flat annual fee. Unlimited terminals. Zero hidden markups.

01

Custom-Built for You

We adapt the software to match your menu layouts, printer routing, and cashier workflows. If you need a custom button or custom report, our engineering team builds it for you.

02

Unlimited Devices & Screens

Run cashier terminals, waiter tablets, kitchen screens, and table QRs under a single flat ₹14,999/year subscription. No per-terminal fees, no transaction cuts, and no feature locks.

Everything You Need to Run Your Outlet

Ultra-Fast POS Billing

Take orders, split bills, and print KOTs to the kitchen in under 3 clicks. Process UPI, Card, and Cash seamlessly.

Interactive Table View

Table layouts showing occupied, reserved, and billing status in real-time, helping staff manage guest seating flows instantly.

Self-Ordering Table QR

Diners scan table-specific QRs to view the digital menu and place orders from their phones, syncing directly to the cashier.

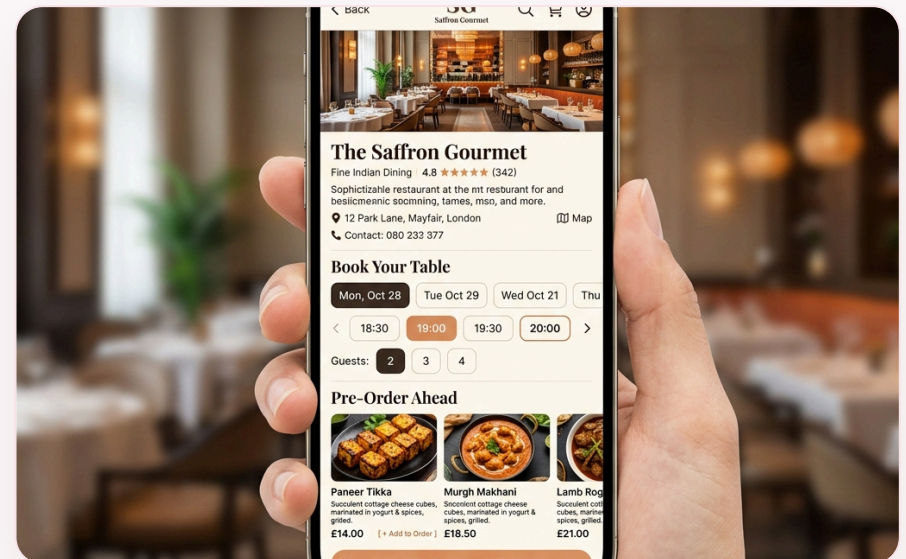

Staff & Cashier Roles

Define shifts and custom access controls for owners, cashiers, and bartenders to ensure secure drawer management.

Diners Book Slots & Pre-Order Ahead

Our integrated Dineout PWA lets diners reserve tables and pre-select meals, cutting wait times to under 5 minutes.

- ✓ **0% Commission Bookings:** Keep 100% of your reservation deposits and cover charges. Stop paying commissions per seat or per cover.
- ✓ **Direct Slot Booking:** Customers search your cafe, browse active offers, and request bookings directly from the Dineout PWA.
- ✓ **"Order Ahead" Cart:** Customers select dishes when booking. Kitchen receives the pre-order beforehand.
- ✓ **Atomic Table Seating & QR Merging:** POS seating dynamically binds reservation pre-orders. Subsequent scans merge bills atomically.

Customer Dine-In Hub & Mini Add-ons

Gamify and enhance the dine-in experience with modular interactive upgrades.

Offers & Coupons

Renders active discount codes that customers can copy and apply with one tap.

STANDARD PWA

Bill Splitter

Built-in digital calculator to split the bill with friends and include tips at checkout.

STANDARD PWA

Jukebox Queue

Customers request songs from their table QR page to add to the live café music queue.

INCLUDED WIDGET

Waiter Bell

Direct QR waiter paging alerts ("Bring Water", "Get Bill") sent instantly to staff screens.

INCLUDED WIDGET

Valet Callback

Diners scan receipt QR codes to request their valet vehicle dispatch before leaving.

INCLUDED WIDGET

BESPOKE DEVELOPMENT

We build **any kind of software** you need.

We are not just limited to restaurant billing. If your business operations require custom modules, our engineering team builds it for you at no extra charge.

- ✓ **Custom HRMS Platforms:** Employee shift check-ins, attendance logs, and staff profiles tailored for your store.
- ✓ **Custom Payroll Modules:** Calculate salaries, bonuses, and staff payouts directly within the system.
- ✓ **Tailored Integrations & CRM:** Connect with external legacy APIs or customize your customer loyalty rules.

H

Store HRMS & Attendance

P

Custom Store Payroll

Hourly wages & split payouts enabled

S

Custom Operations CRM

Linked with local inventory depletion

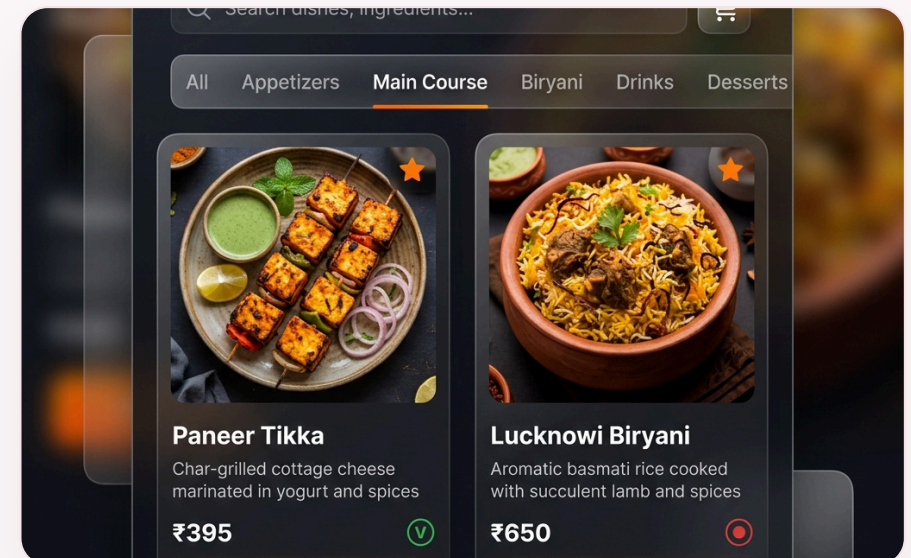

The Math: SaaS Subscription vs. Our Flat-Rate Package

Cost Item	Typical SaaS Subscription (Base + Add-ons)	RestroPOS (Flat-Rate Subscription)
Upfront Setup Fee	₹5,000 – ₹10,000	₹0 (Included)
Monthly Software Rent	₹3,000/mo (Never-ending)	₹0 (Billed annually)
Custom Add-ons & Modules	Extra per module (₹2k–₹5k each)	₹0 (All 13+ modules included)
Year 1 Total Cost	₹41,000+	₹14,999
Year 2 & 3 Cost	₹72,000+	₹29,998
3-Year Total Outlay	₹1,13,000+ (With limits)	₹44,997 (All-Inclusive)

Internet Down? **Keep Billing.**

Other cloud POS applications freeze when the internet cuts. RestroPOS keeps working without missing a beat.

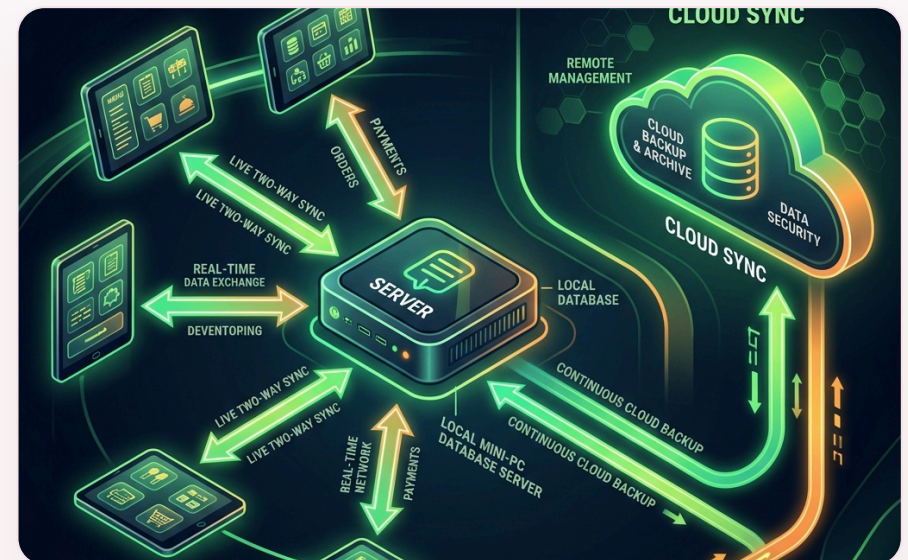

- ✓ **Local Mini-PC DB:** We set up a local database server inside your building. Your local devices communicate directly with it.
- ✓ **Automatic Cloud Sync:** The moment your internet reconnects, all transactions sync automatically to the cloud.
- ✓ **Zero Speed Lag:** Fast response times for billing tablets and thermal kitchen printers, regardless of external bandwidth.

Managed Cloud Hosting. Zero Stress.

Continuous server infrastructure monitoring, automated upgrades, and speed optimizations fully managed by RestroPOS.

- ✓ **All-Inclusive Hosting:** Dedicated database and cloud server hosting costs are fully covered under your flat-rate subscription.
- ✓ **Zero Server Management:** You never have to log into database servers or hosting panels; we handle 100% of the maintenance and upkeep.
- ✓ **Robust Backups:** Automated hourly database snapshots and daily backups managed at no extra cost to secure your data.

Your Dedicated Tech Team

All continuous upkeep and active assistance covered by your subscription.

Included
PART OF YOUR SUBSCRIPTION

SSL & Domain

We configure and manage your secure HTTPS address so your billing link is always live and safe.
